LITIGATED REISSUE

**REISSUE APPLICATION
SUPPLEMENTAL REISSUE DECLARATION BY INVENTOR**

I, Steven B. Dunn, hereby declare that:

- (1) My residence, post office address and citizenship are as stated below next to my name;
- (2) I verily believe that I am an original, first and joint inventor (with Tor H. Petterson, now deceased, whose legal representative is now Grace C. Petterson, M.D., having an address of 1294 West 6th Street, Suite 102, San Pedro, CA 90731) of the subject matter that is claimed in letters patent number 6,125,548 which was granted on October 3, 2000 (hereinafter "the patent" or "the original patent") and in the foregoing specification and for which invention I solicit a reissue patent;

ACKNOWLEDGEMENT OF REVIEW OF PAPERS AND DUTY OF CANDOR

- (3) I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims and the Amendment that is being filed on even date herewith;
- (4) I acknowledge the duty to disclose all information known to be material to the patentability of this application in accordance with 37 C.F.R. §1.56;

**STATEMENT OF INOPERATIVENESS OR INVALIDITY OF
ORIGINAL PATENT UNDER 37 C.F.R. §1.175**

- (5) I hereby state that I believe the original patent to be partly inoperative because we claimed less than we were entitled to claim.
- (6) I further state that since my execution of the prior declaration submitted in this application I have been made aware of further errors in the original patent. These newly appreciated errors include:
 - (a) Several instances in the specification where the --ring support members-- were mistakenly described as "nipple support members."
 - (b) A failure in the original specification to provide literal antecedence for the concept of a predetermined plane of rotation in which the pegs 18 are constrained to move.
 - (c) Discrepancies on the spelling of the word "disk."
 - (d) Other minor formal issues in the specification and Drawings.
 - (e) Section 112, second paragraph issues that were raised by the Examiner with regard to claims 5-12 and 13.
- (7) The foregoing issues were addressed in the amendments filed previously in this reissue patent
